

## Press Release

Afternoon Projects is pleased to present *Pleasers and Teasers*, a solo exhibition by the artist Charlton Diaz. Electrified and whipped like a dream. Impulse and misguided energy are extracted and contained for viewing pleasures. Paying all the sweet prices and creamy dues. Peep show views into all hues. Added bonus confection for all hard work and affection. Holding on to promised gifts and well wishes. Broken off in different places. Waiting to receive presence. Will they come? Or is it just a tease? Everything all in one banging out of a love gun. If the world was a cake the inside is worms.
